Bengaluru, India | +91 7799502864 | mrgopikrishnapinni93@gmail.com | linkedin.com/in/gopikrishna-pinni | github.com/Gopikrishnapinni

Professional Summary

DevOps Engineer with 2 years of professional IT experience building CI/CD pipelines and deployment automation for a production healthcare platform. Hands-on with AWS (EC2, EKS, ECR, IAM, CloudWatch), Docker, Kubernetes/EKS, Jenkins, GitHub Actions, Terraform, and Linux. Experienced in monitoring and observability (Prometheus, Grafana, ELK) and in Java/Spring Boot backend development, bridging application code and cloud infrastructure.

Technical Skills

- **Cloud (AWS):** EC2, EKS, ECR, IAM, VPC, S3, RDS, CloudWatch, Lambda
- **CI/CD & DevOps:** Jenkins, GitHub Actions, ArgoCD, Maven, CI/CD Pipeline Design
- **Containers & Orchestration:** Docker, Kubernetes (EKS), Helm
- **Infrastructure as Code:** Terraform
- **Monitoring & Logging:** Prometheus, Grafana, ELK Stack, AWS CloudWatch
- **Scripting:** Python, Shell/Bash
- **Development:** Java, Spring Boot, Spring Data JPA, RESTful APIs, Microservices, MySQL
- **Version Control:** Git, GitHub, Branching Strategies
- **OS & Networking:** Linux, DNS, Ports, Security Groups, VPC
- **Other:** Agile/Scrum

Professional Experience

Associate Software Engineer – Luna Software Solutions Pvt Ltd (Client: TCS) Sep 2024 – Present
Project: SupraMed – Healthcare EMR Platform Bengaluru, India

- Build and maintain CI/CD pipelines with Jenkins and GitHub Actions, using Docker to automate build, test, and deployment workflows for a production healthcare platform.
- Support AWS infrastructure (EC2, S3, IAM, ECR, EKS) hosting containerized applications, collaborating with development and QA teams to streamline release management.
- Apply rolling deployment and rollback strategies for containerized releases to minimize downtime during production deployments.
- Troubleshoot Linux-based CI/CD and deployment issues and perform root-cause analysis to maintain production system stability.
- Develop RESTful APIs (Java, Spring Boot, Spring Data JPA) for patient records, appointments, referrals, and clinic management; implement RBAC for secure role-specific access and manage Git/GitHub branching strategies.
- Optimize MySQL schemas, SQL queries, and indexing to improve application response time for high-volume healthcare workflows.

Projects

AI-Powered CI/CD Security & Deployment Platform *AWS, EKS, ECR, Terraform, GitHub Actions, Prometheus, Grafana, Python*

- Built a GitHub Actions CI/CD pipeline (build, test, scan, deploy) for Spring Boot apps on AWS EKS, with infrastructure provisioned via Terraform.
- Integrated Trivy and SonarQube for vulnerability and code-quality scanning, and implemented an AI service that analyzes pipeline failures and recommends root causes.
- Deployed with Helm using health checks and rollback; monitored with Prometheus and Grafana.

Cloud-Native E-Commerce Platform – Kubernetes & AWS DevOps *AWS (EKS, ECR, EC2, IAM, VPC), Docker, Helm, GitHub Actions, ArgoCD, Terraform*

- Provisioned AWS infrastructure (EC2, VPC, IAM) using Terraform.
- Deployed containerized microservices on EKS with Docker and Helm, including Ingress, ConfigMaps, and autoscaling.
- Built CI/CD pipelines with GitHub Actions and ArgoCD; monitored with Prometheus, Grafana, and ELK.

Certifications

AWS Cloud Practitioner Essentials – Amazon Web Services (AWS)

Education

B.Tech in ECE – Dhanekula Institute of Engineering & Technology, Vijayawada 2020 – 2024
Intermediate (MPC) – Sri Prathiba Junior College, Ongole 2018 – 2020
